WORK EXPERIENCE

PERSONAL PROJECTS

Roucha Cielo (01/2025 - 03/2025)

- I built the **Roucha Cielo** website from the ground up using **ReactJS(Vite)** and **Tailwind CSS**, focusing on speed, mobile friendliness, and a clean user experience. From product pages to a smooth checkout process, everything was designed to make shopping easy and enjoyable. The site helped boost customer engagement and gave the brand a strong, modern online presence.
- <https://rouhacielo.com/>.

Frontend Developer Portfolio (05/2025 - 05/2025)

- Designed and developed my personal portfolio using **ReactJS (Vite)** and **Tailwind CSS** to showcase my frontend and mobile development skills. The site highlights my projects, skills, and contact info in a clean, responsive layout. It reflects my ability to create user-focused, modern web experiences and serves as a central hub for potential clients and employers to explore my work.
- <https://faizan-posrfolio.vercel.app/>.

Marks Management System (04/2025 - 04/2025)

- Built a Marks Management System to store student marks with section details, display them in a live table, and export results to Excel.
- <https://marks-managmenet-system.vercel.app/>.

EDUCATION

BS IT

University of Gujrat

11/2021 - 02/2025

EmoChat (Flutter) Final Year Project

- Built a Flutter chat app with message scheduling, secure authentication, and real-time emotion detection for smarter, more engaging conversations.
